

PRODUCING AGENT (RETAIL PRODUCER OR SURPLUS LINES BROKER) DILIGENT EFFORT AFFIDAVIT
(§§ 10-5-103, 10-5-103.5, C.R.S., & Section 6 of Regulation 2-4-1)

As a surplus lines broker, I have determined, or if the insurance was produced by a retail producer, I have relied upon the retail producer to determine that the full amount of insurance required was not procurable, after diligent effort had been made to do so, from among at least three (3) admitted insurers authorized to and actually transacting that line of business in this state. Or that the coverage was not procurable because there were less than three (3) admitted insurers authorized to and actually transacting that line of business in this state. Further, that placing the insurance with a non-admitted insurer was not for the purpose of securing a lower premium rate than which would be accepted by an admitted insurer unless the premium rate quoted by the admitted insurer must be ten (10) percent higher than that rate quoted by the non-admitted insurer. In addition, the policy benefits and provisions within the policies being compared shall be comparatively similar.
